

ACCENT METAL SEATING CONSTRUCTION –

- Fully welded frame is constructed of 14 gauge, 7/8" tubular powder coated steel
- Contoured seat and back panels are constructed of laminated, high density hardwood veneers using an RF process and a UF resin with low off-gas emissions
- Foam contains environmentally-friendly bio-based materials, and is California TB117-2013 Compliant
- Chair feet are plastic injection molded glides in a clear material to minimize floor marking

FEATURES –

- All fasteners are tamper-resistant
- Sled base enables frame to be bolted to floor
- Steel seat pan conceals upholstery staples and adds weight
- Nylon glides are non-removable and protect floors from damage

OPTIONS –

- Custom frame finishes
- Bolt-to-floor brackets
- Contrasting fabrics
- Moisture barrier
